

CIMSS the next 25 years

The circle

General Comments

Leadership in research and application of Sat Met

Partnerships

International connections

} There was
a need

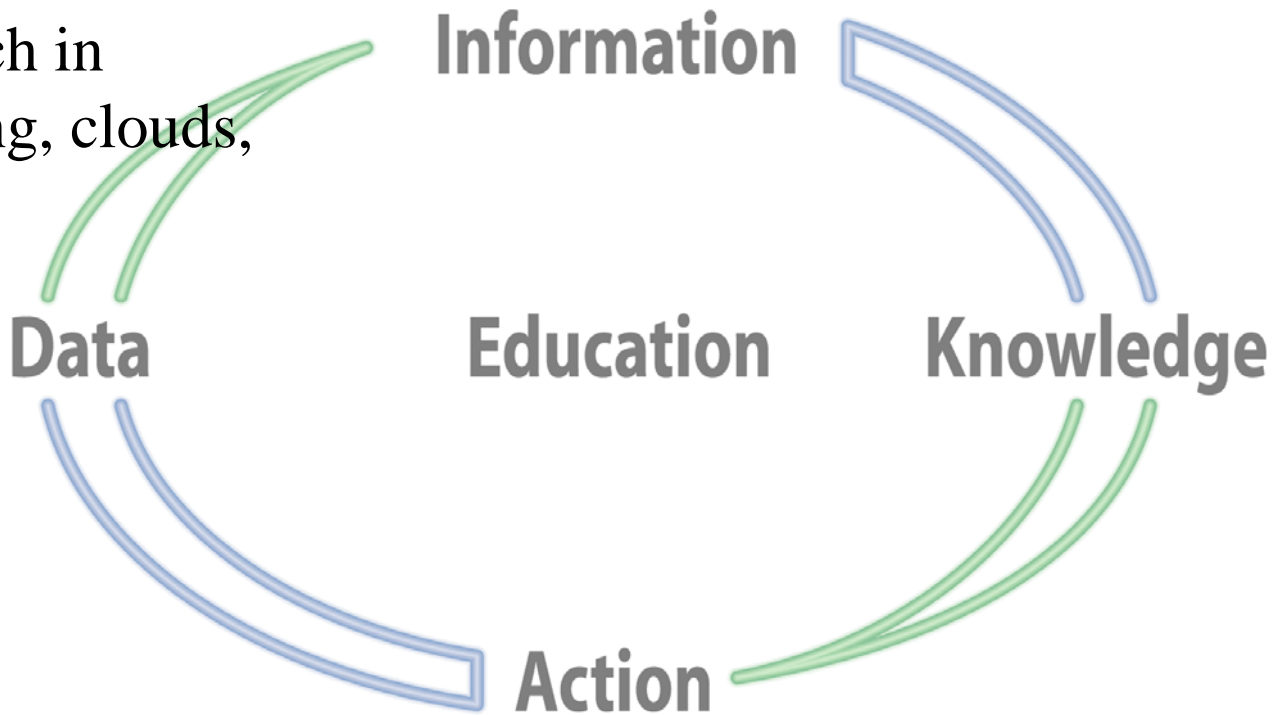

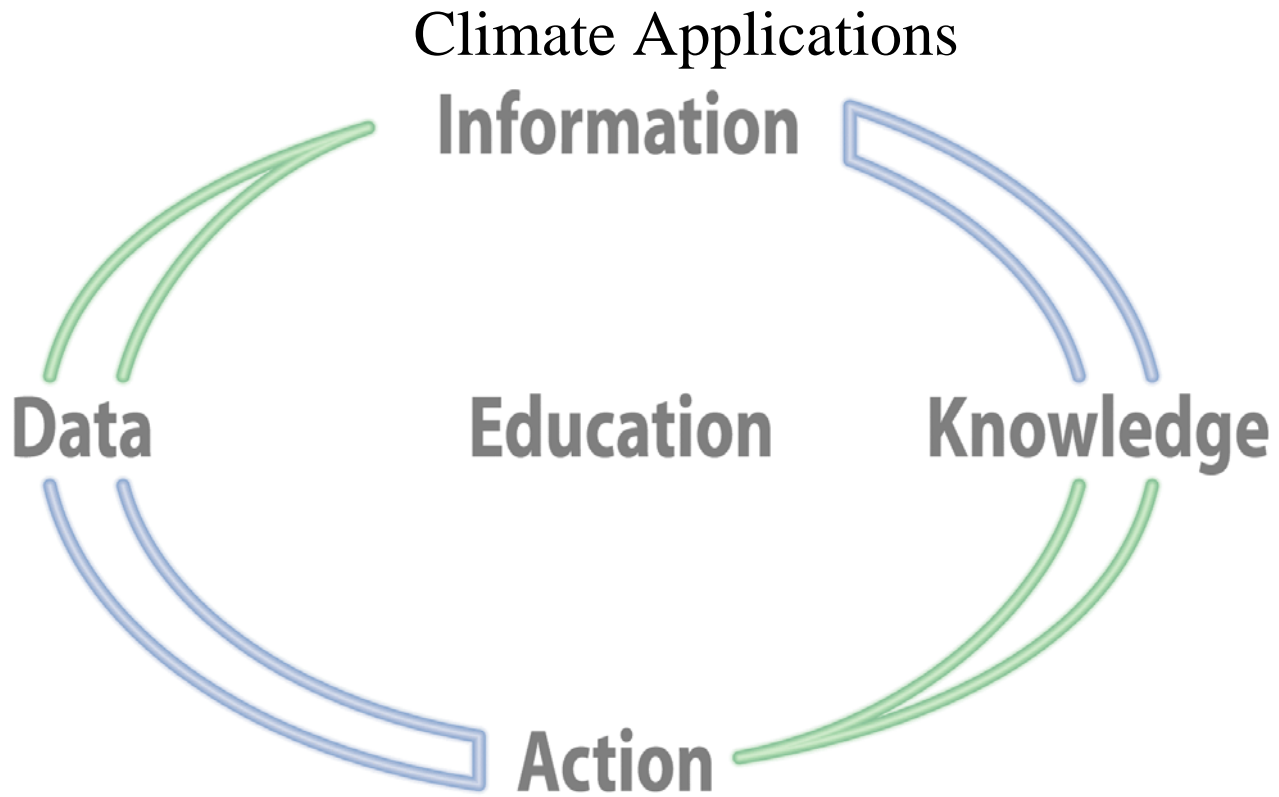

There as a
vision to fill
the need

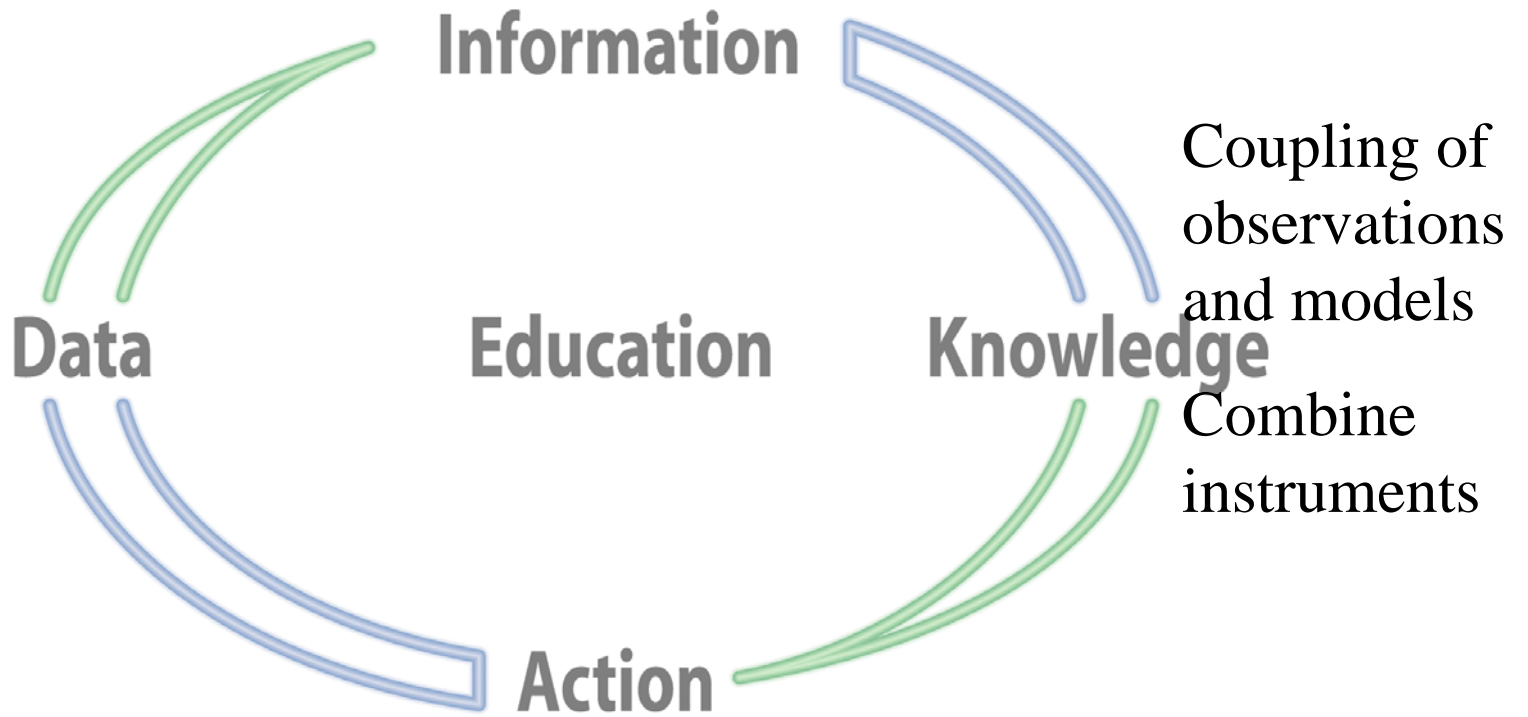

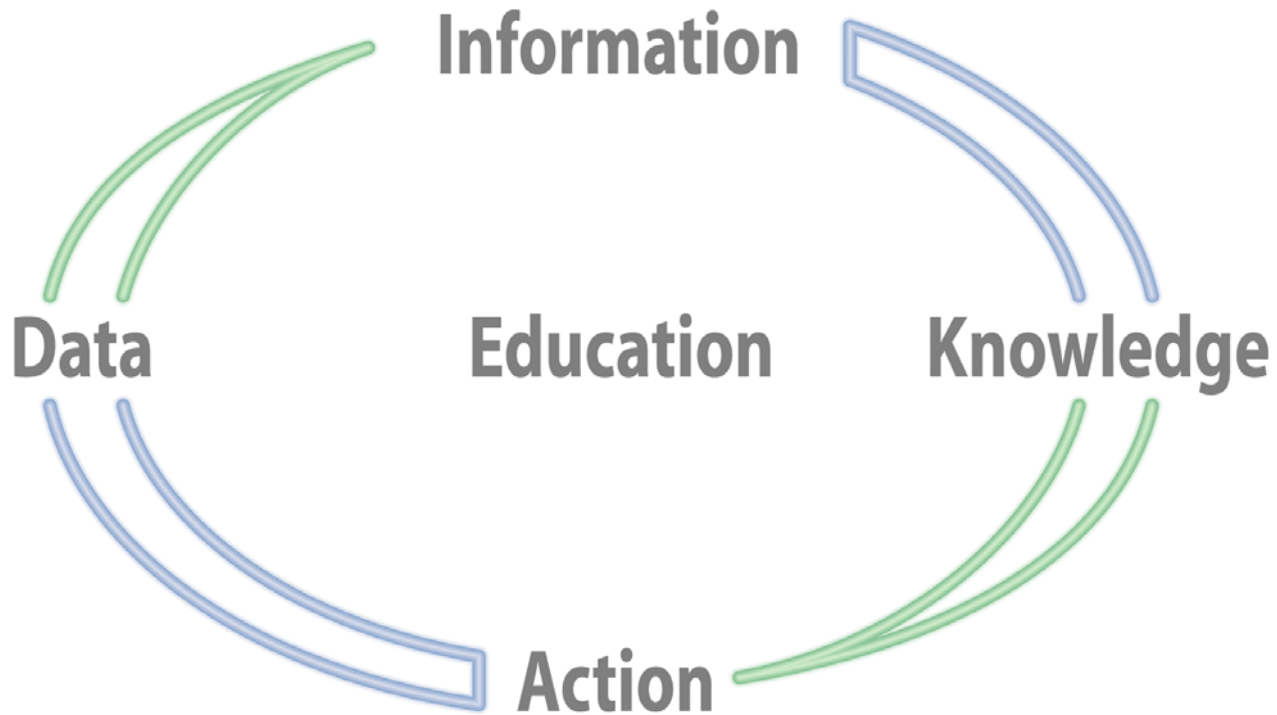

Evolution of GEO/LEO –

Research in
sounding, clouds,
surface

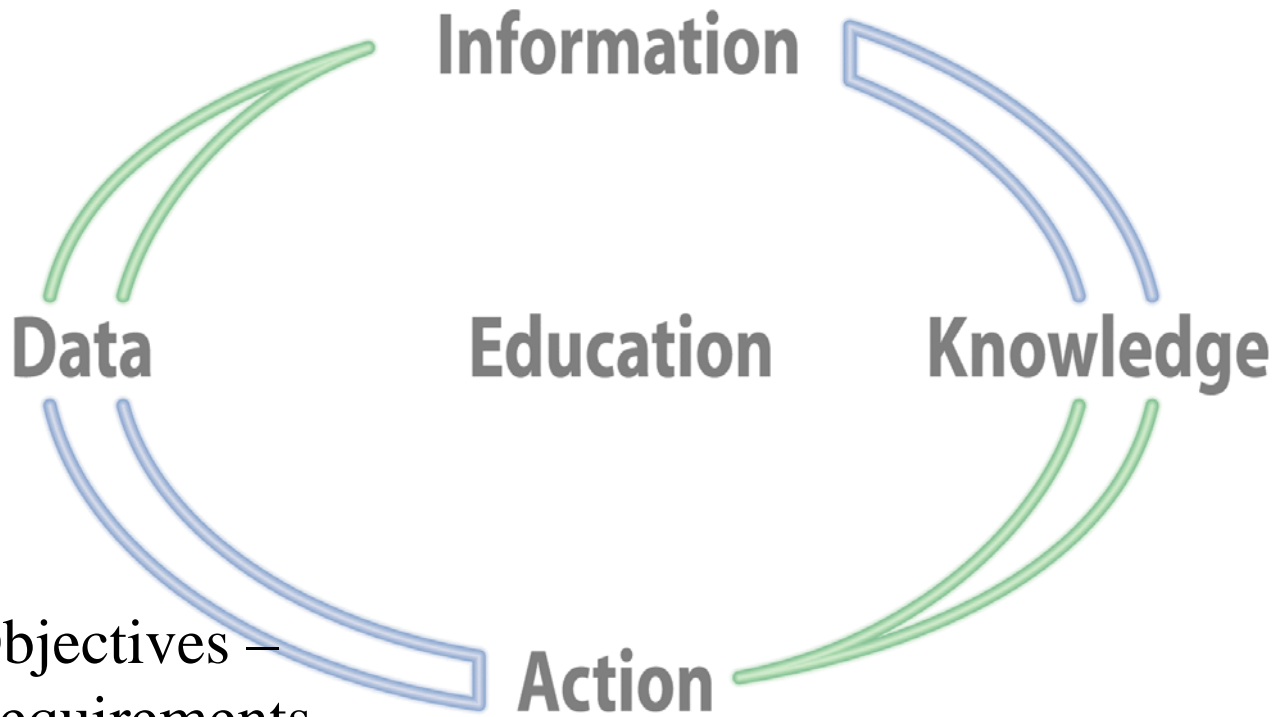

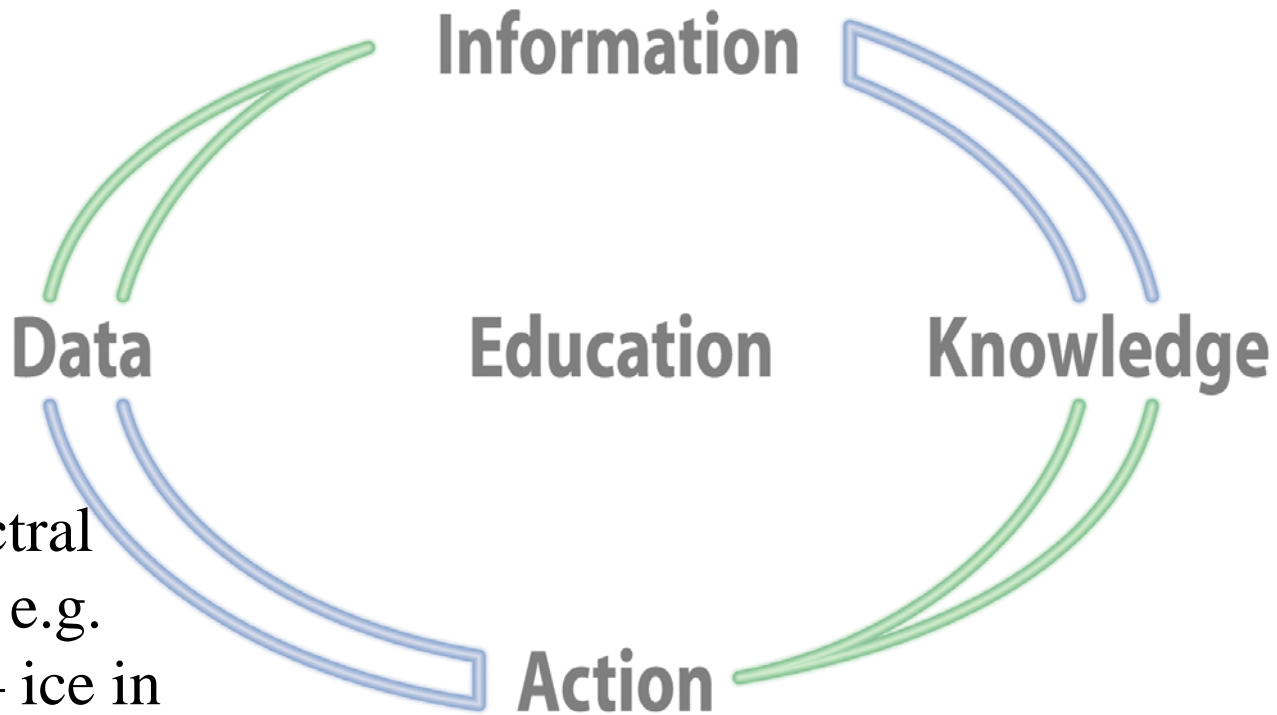

How we make decisions is
changing

Science Objectives –
Science Requirements –
Instrument Requirements
– Mission requirements

New spectral
regions – e.g.
Submm – ice in
the hydrological
cycle
