

**Survey  
of  
4<sup>th</sup> Workshop on Hyperspectral Science of UW-Madison  
MURI, GIFTS, and GOES-R  
THE PYLE CENTER  
UNIVERSITY OF WISCONSIN-MADISON  
702 LANGDON STREET, MADISON (608-262-1122)  
27-28 APRIL 2004**

1. What is your role in hyperspectral activities in mission planning, instrumentation, research, applications, data utilization, and others?
  
2. How can UW support your hyperspectral activities?
  
3. What are the high priority hyperspectral data sets, tools and products that UW can provide to assist you in achieving your goals?
  
4. For GOES-R HES, what specific technical and scientific knowledge is still needed for your organization to accomplish its mission?
  
5. Other comments:
